

Is your car famous?

Received some great photos and details from Chris 'Dr Chris' Keating (96.5 FM, Melb). These 'screen shots' are from various Crawford Productions' shows of the era. Chris says that Crawford's held a fleet of all types of vehicles to be used in various shows they were producing. Enjoy the following shots. Who knows, it could be your car in the frame. (I've marked the registry ['comments' column] where known).

Thanks again Chris. Hope there's more to come.
